PROJECT

VEHICLE THEFT ONLINE COMPLAINT APPLICATION SYSTEM

The Main aim of this project is to notify each and every policeman about the release of the any vehicle theft cases, Including his/her details such as criminal id, name, type of release and so on. In this project police officer will take action for a traffic accident vehicle theft case also. Police officer will maintain the all-theft complaints to manage records of different activities related to First Information Report (FIR). In this system all these activities (like registration of the complaints, updating, information) are managed that saves time.
